Product Sheet

Liquid

Keep it Simple: Don't Cut Your Stems!

200

Express Clear ULTRA 200 is our new technology that eliminates the need to recut your stems.

With this transformative solution, you will see the same performance you have come to expect with our FloraLife® Clear ULTRA 200 Storage and Transport treatment without the hassle and added labor of recutting your stems.

- Saves time: NO need to recut
- No Mess: No cut ends to clean up
- Same hydration and vase life that you have come to expect from FloraLife® products

Dosage:
5 ml / 1 L

Container sizes available:
5 L, 10 L, 25 L, 100 L, 200 L, 1000 L

Features & Benefits

- A balanced formula to lower the pH and increase the speed of flower hydration
- Appropriate amount of nutrients to prevent premature bud opening and bent neck in flowers
- Helps in keeping the flower stem's "plumbing" free flowing
- Can be used with all flower varieties, as well as with flowers that are uncut or have been newly cut
- Reduces flower stress and damage, limiting the opportunity for air bubbles, bacteria and fungus to be introduced into the flower

Express Clear 200 Test Results

Performance test on various fresh cut flower varieties—A revolutionary new product that allows you to eliminate the step of recutting your flowers

Floralife's storage and transport solutions are designed to help keep cut flowers fresh and in ideal condition at this stage in the flower chain. Our storage and transport solutions are formulated to hydrate and provide balanced amounts of nutrients for cut flowers to prevent bent neck and maintain flower buds in good condition without causing excessive opening.

Results

- No need to recut flower stems before placing them directly in solution
- Hydrating and feeding treatment for use after dry storage or transport
- Use for wet storage
- Use wherever you normally use Floralife® Clear ULTRA 200

Conclusion

It was observed that the Floralife® Express Clear ULTRA 200 with no flower stems recut presented equal vase life when compared to the current Floralife® Clear ULTRA 200 formula with stems recut.
