

Floralife® MicroBLOC® Greenhouse Disinfectant

liquid disinfectant

MicroBLOC® Greenhouse Disinfectant is an EPA-registered effective antimicrobial disinfectant designed for use by wholesale and retail florists, shippers and greenhouses. When used as directed, this product will disinfect hard, nonporous surfaces such as flower buckets, tools, floors and walls of coolers, design and packing benches and counter-tops. This product is specifically formulated to effectively eliminate offensive odors caused by mold and mildew.

Features and Benefits

This product inhibits bacterial and fungus growth and deodorizes by killing microorganisms and diseases such as mold and mildew, etc. that cause offensive odors.

Read and follow label directions.

Directions for Use

- Disinfectant - Fungicide - Mildewstat - Deodorizer.
- Pleasant scent, non-acid disinfection - not overpowering like chlorine bleach.
- Will not leave a grit or soap scum.
- Economical concentrate improves flower life as a result of a cleaner environment.
- Can be applied through automatic washing systems, immersion tanks, foaming apparatus, low pressure sprayers and floral processing equipment such as underwater cutters (anti-foaming agent may be needed).
- May be used as a general purpose antimicrobial detergent in florist shops, wholesale florist, shippers, greenhouse packing areas and other commercial horticulture places for efficient cleaning and antimicrobial action against certain bacteria which cause:
 - Plugging of stems with slime, which reduces uptake of water for various flowers including roses, chrysanthemums, gladioli and tulips.
 - Production of ethylene gas, which may injure blooms of the various sensitive flowers including stock, carnations, snapdragons, some orchids, some roses, baby's breath, sweet peas, freesia & alstroemeria.
- Reduce product credits.
- Eliminates odors and contamination.
- Drain disposable.

Available in 1 and 30 U.S. gallon liquid containers.

EPA Registration #10324-94-32258
