

Floralife® Floroma® Scented Flower Food – Clear

vase and OASIS® floral foam solution

Floralife® Floroma® Scented Flower Food creates a whole new experience that tantalizes your senses by adding a pleasant scent to your flower vase while hydrating and nourishing your flowers. Capture the total essence of postharvest flower care with this product. It remains clear in all water types and is the ideal flower food choice for clear vases.

For Florists and End Consumers

Floralife® Floroma® Scented Flower Food is more than just a flower food—*experience the scentsation!*

Features and Benefits

- Scented flower food connects with the consumer's sensory aspect of flowers.
- Provides nutrition for optimal quality and flower freshness.
- Clear solution adds to the visual show of the flowers.
- Suitable for use with all flower varieties and foliage greens – mixed or straight line bouquets.

Directions for Use

- Open up flower food packet and mix entire contents to the properly measured amount of water recommended.
- Pour solution into a clean vase before recutting stems.
- Recut the flower stems taking off at least 1 inch from the bottom with a clean, sharp knife or cutter.
- Place stems into vase with this product, keeping leaves out of the solution.

Read and follow label directions.

Dosage

Available in powder formula, premeasured to make 1 quart finished solution.
