

Floralife Quick Dip® Instant Hydration Pretreatment

one-second hydration solution

Floralife Quick Dip® is an instant hydration pretreatment to help maximize solution uptake and help keep flower stems free flowing.

Features and Benefits

- Ready to use solution, no mixing required.
- Helps reduce flower scrap.
- Ideal for all operations, saves space, time and labor.
- Aids in reducing bent neck and droopy stems.
- A must for roses, gerbera daisies and field grown crops.
- Can be used on all flower varieties including premade cash-and-carry bouquets.

Directions for Use

- Follow the instructions on the product label.
- Remove foliage that will be below the solution level in container.
- Recut flowers underwater.
- Place stems in two inches of Floralife Quick Dip® for one second.
- Immediately place flowers in a Floralife® Fresh Flower Food solution.
- Discard used solution daily or if it becomes cloudy or contaminated with debris.
- Never pour used solution back into the original bottle.

Read and follow label directions.

Dosage

Liquid

- Do not dilute. Ready-to-use solution.
